

VERDI KEIRA MISTRAL

Premonta-montatrice IDEAL.
 IDEAL pulling over and lasting machine.
 Machine à prémonter et monter les tiges.

II FASE - 2nd PHASE - 2me PHASE

Toe lasting.
 Montage su bout et de la plante.

2nd PHASE - TOE-LASTING

Pneumatic pulling-over and lasting machine with two heads (left and right shoe) having centering levers for the prelasting phase. Large ranges of simple and functional regulations allow to make the machine suitable for different productions: in fact it can work both on light leather like calf or kid skins or working heavy leathers with the same easiness, naturally modifying the working pressure by the control panel.
